BAR APPROACH

OF ALL STRANGERS Railway Wizard is Not Allowed

to Go Out Into Open Air.

(Times Leased Wire.) Turners, N. P., Aug. 27.-E. H. Har

riman, the railroad king, is being more closely guarded than is the Czar Russia. Armed guards to-day are patrolling the mountains in the vicinity of Arden with implicit instructions not to allow anyone to approach within CONTINUES FLIGHT three miles of the Harriman place, unless he be a member of the family, usiness associate or one of the physicians. These are Harriman's orders and they are being carried out to the letter. It was positively learned that the wizard has not waiked a hundred steps since his return to Arden, and the members of his family are alarmed at his condition. When he is no

upon the scene and found Harriman basking in the sunshine. He was furious and ordered that the wizard be carried indoors at once. Then he gath-ered the Harriman attendants around him and threatened to dismiss the next one that wheeled the railroad king out-side of the sick room.

To-day several reporters cornered Dr. Lyle, who made a flying trip to Arden last night as he was nearing

why I went to Arden," was the reply. why I went to Arden, "was the reply.

He refused to say anything further.

Harriman is furious at the reports that have been sent out regarding his illness. To-day he instructed the Eric operator not to send out any more press matter concerning his illness or any member of his family. The telescope of the concerning his illness or any member of his family. The telescope of the concerning his illness or any member of his family. any member of his family. The tele-phone operators at Turners also have been instructed not to connect any outsiders with the Harriman castle. And they are carrying out these in-structions to the very letter. Shortly after noon to-day two loads

country seat, from a special train and placed in one of Harriman's automo-hiles. The chauffeur drove full speed to the house with his load.

MORE HARVESTERS NEEDED.

Winnipeg, Aug. 27.-Provincial Im Winnipeg. Aug. 21.—Provincial Inaverage corn crop is valued at \$55.

300,000, but it is not believed that this
year's yield will amount to more than
\$72,000,000.

The farmers are attributing the unusual hot weather of this summer as
being responsible for the short crop.

Winnipeg. Aug. 21.—Provincial Inmigration Agent Burke yesterday announced that conditions are improving through the wheat fields of Manitoba, but more men are needed. The
G.T.P. toid him that the company
would make a one-cent rate for all
harvesters on their lines.

## STEAMER OHIO GOES DOWN NEAR KETCHIKAN

Six Persons Reported to Have Been Drowned---Purser and Wireless Operator Sacrifice Lives to Save Others.

(Times Leased Wire.) Ketchikan, Alaska, Aug. 27.-One of

the most remarkable stories of heroism at sea, with the magic wireless again playing its marvellous part in the savng of lives, will mark the history of the destruction of the big stea Ohio, which crashed into a rock off Spire Point at 1 o'clock this morning and went down a total loss, carrying to their death six men.

The reported dead: Purser Stephen, of Seattle,

George Eccles, wireless operator.
Though only four others are reported to have been drowned, it is said that number of others are still missing. M. J. Heney, a prominent railroad contractor, for the Guggenheim interests, who escaped from the doomed best known navigators of the North wired the following:

"Stephen and the others went down while trying to save the lives of pasengers instead of looking to their own safety. Stephen could easily have aved his own life if he had given a thought to his own safety."

soon as the ship struck the rock,

The call for help, "S.O.S.," went flashing through the air. It was picked the steamers Humboldt and the Ruperl City. Eccles barely had time to flash the information that the Ohio what her location was,

Almost instantly te Humboldt and the Rupert City had started toward the scene, when suddenly the wireless nen on the two ships found that they had "lost" the Ohio. This ominious information led to the belief that they were in danger of being too late or that the operator on the Ohio had deserted his post.

The developments showed that Eccles played the part of a hero to the last and his shipmates sent word that they

nd is destined to take a place in the list of the new heroes of the sea, ahead of that of the famous Jack

had no hope of finding him alive.

George C. Eccles lived in Winnipeg,

## BRISTOL TYPE OF CRUISERS

FIRST VESSELS WERE COMMENCED THIS YEAR

Canadian Vessels to Resemble Monmouth, But Smaller.

Yesterday the Canadian Associated Press wired from London that the Canadian navy was to be comm by the building of cruisers of the Bris-tol type. Much interest has been shown in this announcement and there has been much curiosity as to what type was referred to. Some shipping who profess to be authorities stated that there was no Bristol type and that the dispatch must therefore

wrong.

Captain Crawford, commanding the squadron and naval station at Esquimalt, seen this morning, stated that the Bristol type was something new in naval architecture. Four of them are being built, the first having been laid down since the beginning of the year. They are unarmored cruisers with a protective deck. They resemble the first class cruiser Monmouth which visited this station a few months ago, but are not as large as her. They have a displacement of 4,800 tons and are 430 feet long. The engines develop a 22,000 horse power giving them a speed of 25 knots.

The vessels were designed for the purpose of providing good ocean-going vessels with high speed, suitable for flying the British flag in the outlying parts of the British Empire. They will carry six 7.5 quick-firing guns and some lighter armaments which have not

some lighter armaments which have not yet been decided upon. They will carry a lot of coal and for this reason are suited to long cruises.

The Bristoi type would be particularly suitable for patrol purposes, and as any Canadian vessels would be required to do that sort of work, the type is thought to be eminently suited for

## ALBERTA MAN WINS THE GOVERNOR'S MEDAL

Officers of Sixth Regiment, Vancouver. Take the Barlow Match. - Contract

(Special to the Times.) Ottawa, Aus. 27. The Governor-General's match in the Dominion Rifle Association meeting was concluded today, the second stage consisting of 7 shots at each of the following ranges, 800, 900 and 1,000 yards. McInnis, Alberta, won the first prize, D. R. A. gold medal and \$200. In the grand aggregate Forrest, of Vancouver, was ninth, winning \$5; McHarg, Vancouver, 17th, \$5; Youhill, Vancouver, 21st, \$5; Boulte, Vancouver, 30th, \$5; Caven, Victoria, 52nd, \$4; Perry, Vancouver. 60th, \$5; Simpson, Vancouver, 67th, \$4;

Richardson, 73rd, \$4. Richardson, 73rd, 34.

The Barlow match for teams of four officers was won by the 6th regiment. Vancouver, with 361. The match was ten rounds at 500 and 600 yards.

Russell won the Bisley aggregat with 395. Forrest scored 392; McHarg, 384; Boulte, 377; Perry, 375; Youhill, 374; Richardson, 372; Simpson, 368;

According to witnesses, Kiser told Pickett to get him a glass of wine, and if he didn't, he would "get him." Brickett refused and Kiser, becoming angry, shot the young farmer in the side. A moment later Pickett discharged both barrels of his shot gun and the leaden pellets lodged in Kiser's chest below the heart. He died shortly afterward in this city where he was brought after the shooting.

"IRON KING" INJURED

AN AUTO ACCIDENT.

Those enjoying special privileges.

W. H. Singer, Head of Big Pittsburg Firm, May Not Recover.

(Times Leased Wire.)

Pittsburg, Aug. 27.—Wm. H. Singer, one of the best known of Pittsburg's "iron kings" and the head of the Singer-Nimick Company, is believed to be fatally injured to-day as a result of an automobile crash last night in which he was hurt.

The accident occurred near his sum-

ner home at Providence, R. I. The wealth of Singer a year ago was estimated at \$30,000,000. He is nearly estimated at \$30,000,000. He is hearly 70 years old and has four children. Last year he invited all his children to dinner and on the plate of each was found a paper giving an absolute transfer of \$4,000,000. The dinner cost him \$16,000,000, one of the most expensive

CONSERVATION OF

WATER POWER

Speaker at Congress Praises Work of Roosevelt and

Pinchott.

Seattle, Wash., Aug. 27.—Jos. N. Teal of Portland, Ore., delivered the keynote address at the opening of the National Conservation Congress yesterday, in which he praised Chief of Forestry Pinchot, and outlined the so-called Roosevelt conservation policies. He spoke in part as follows.

"Conservation means that the welfare of the people as a whole should be considered rather than the enrichment of the few. The people are awakening and the battle is now on for the preservation of the rights of the public to the public wealth."

Teal urged that it is morally wrong for congress or any state legislature to grant rights to the public domain in perpetuity because the present generation, he said, has no right to legislate for future ones which have their own problems to work out and their own lives to live.

"When any attempt is made to correct evils resulting from this miscon."

own lives to live.

"When any attempt is made to correct evils resulting from this misconception of power, or misconduct of our representatives, straightway there is drafted into service the time-serving and ancient defender of every wrong, our well-known friend, 'vested rights.' No matter what the basis of this right, whether the bloody sword of the conqueror or the grafting aldermanic hero of a Broadway steal, 'vested rights' is there claiming protection for 'vested interests,'

interests.

"A striking illustration of what I mean is the policy of granting water powers in perpetuity, if to-day it were proposed in this state to grant under a blanket law all of its water powers to one man, or to one corporation, public opinion would drive dishonored from the state, every participant in

Shooting Follows Quarrel Regarding a Drink of Wine.

(Times Leased Wire.)

Calistoga, Cal., Aug. 27.—Henry Kiser is dead to-day and Ernest Pickett is suffering from a wound in the side from a gun duel in which the two men degaged last night after a quarrer regarding a drink of wine. Kiser owned a farm adjoining that of Pickett's father and the fight took place on the Pickett ranch. Pickett claims that Kiser shot first, wounding him and his statement was borne out with the last words ever spoken by Kiser before he died.

According to witnesses, Kiser told

the act. Yet, as a matter of fact, every legislature in every state of the overy legislature in every state of the every legislature in every state of the union excepting the state or Oregon, can to-day grant to one man and to his heirs and assigns forever every water power over which the state has jurisdiction. Morever, investigations have disclosed that it is a fact that there exists to-day a scheme by which unless restrained in some way, substantially all of the water powers of this bountry will be concentrated in the hands of a few men. Such a monopoly as this, if it should come to its full fruition, will overshadow all others in importance and power.

"It is a matter of fact that there exists to-day a scheme by which unless restrained in some way, substantially all of the water powers of this bountry will be concentrated in the there exists to day a scheme by which unless restrained in some as it is a fact that there exists to day as cheme by which unless restrained in some as it is a

Address changed as often as desired. THE BY-LAWS AND AFTER.

One by-law has been accepted; the other left at the polls. The voice of the people is mighty and must prevail. In the one case the advice of the press has been taken; in the other it all its hopes from the very beginning has been rejected. The Times has no fault to find with the popular judgment. It would be futile to scold, to suggest that the ratepayer did not vote intelligently, and to insinuate that he will live to rue the day when he killed the water by-law. After all, the case is simply a clash of judgments. In this instance the thing to do is to abide by the decision of the majority and to work to the end that the judgment of the majority may be justified.

Many of the friends of the Times have written in the kindliest possible spirit, pointing out that the paper was making a serious mistake in supporting both the water by-law and the tramway agreement, meaning thereby that it was jeopardizing its acknowledged popularity and endangering its in-fluence by the pollay it was pursuing. But, kind reader and indulgent patron, is it not better to be on the right side even though temporarily in the minority, than on the popular side which your judgment tells you is the wrong side? If the campaign were to be fought over again, the Times would take precisely the position it has oc cupied during the past month, and would maintain it to the best of its ability, because it believes that the true interests of the city of Victoria adoption of the water by-law as well

We understood perfectly well from the beginning that it would be an exceedingly difficult thing to persuade a majority of the ratepayers to vote for the Esquimalt Water Works Company. The trend of popular feeling was perfectly apparent. The fact was quite clear that there were many elements strongly opposed to the adoption of the by-law, elements which were perfectly sincere in their convictions.

There is a large class of persons in the city who are convinced that there is plenty of water in Elk Lake to meet the requirements of Victoria for a con-siderable number of years to come. There is another class which believes that while Goldstream is the logical and economic source of water supply for Victoria, the expropriation of the of the Esquimalt Company would be falling into the tran which that company has laid for our feet from the first day of its conception. There is still another class which holds that the capacity of Goldstream as a source of water supply has been greatly exaggerated and that the expropriation of that property would not by any means solve the problem with which we have been wrestling without tangible result for the past quarter of a century. There is yet another class which maintains that by the passage of the electric agreement and the rejection of the water by-law the value of the Esquimalt Company's property will be all but destroyed and the company brought to its knees. And, final-ly, there is the class which consistent-held that Canada should own, control maintains that water can be purchased by the gallon from the Esquimalt Water Work Company cheaper than it can be procured by any muni-

These various elements, while usually in conflict, combined in this instance to defeat the water by-law. There is no question about that. The other question, and the more serious alternative did not meet with favor one, is whether the elements men- from any quarter in the Imperial Deharmony to permit of the passage of statesmen who had to consider the another by-law, such as the adoption matter foresaw the difficulties which of Sooke Lake as a permanent source might arise in connection with the of water supply. From our point of view, which is not ordinarily pessimistic, the matter appears to be exmaintained from them. Of course the mistic, the matter appears to be ex-

conomy in the management of muni-

cipal business.

The situation, therefore, according Works Company, with its usual acumen, foresaw the result of the voting which took place yesterday and has already made financial arrangements meet it and to take advantage of to meet it and to take advantage of it. The company has got the money to construct a reservoir at Goldstream and to lay a main therefrom to the city. It foresees the consummation of of its career: the city of ing compelled to buy water from it by the gallon. That is the very consur mation the Times has fought against during its entire career. We still hope that such a lamentable conclusion to all our efforts may be avoided, and sible, practicable scheme by

We ask our readers to make a note of what is here set down, to take cognizance of the course of future events, and to observe whether our predictions are not in the end substantially ful-

which it may be prevented will have

cess of reasoning can the conclusion be reached that they have no influence? The fact that one by-law was killed and the other vitalized also seems to put his Worship to confusion. Because the newspapers supported both by-laws, and if the influence of the press in the one case was deadly, why was not the effect the same in the other pestance? Mayor Hall must bear with us if we cannot quite understand the workings of his fine mental processes. Again, we might retort to the sneer of his Worship that the influence of the Mayor and council is dead, because all the members of the council, with we believe one exception, were in favor of the by-laws, and yet one of the measures, and the one we believe to be of the greater importance, was killed by the ratepayers. And again, we know the water by-law, basing their opposition upon what they alleged to be, the fact that the council could not be safely entrusted with the expenditure of such a large sum of money. These doubtful ones pointed to what they called the administration of municipal called the administration of municipal affairs for the past few months in proof to attend a meeting of the Holy Rollers in Vancouver; the experience is one to be would have voted against the tramway agreement also but for the fact that that agreement did not involve an logician it presents a picture of frantic constitute of public money. We do expenditure of public money. We do not say that such animadversions

first came up for discussion in Canada as a consequence of the alarm aroused in Great Britain by the aggressive proand build her own navy. We said that was the only possible course consistent with our position as an autono self-governing nation loyal to the principle of Imperial unity—the course which might not be pregnant with evil in the future. The only alternative to this was an annual contribution to the Imperial navy. ed can be brought sufficiently into fence Conference, doubtless because the

tremely doubtful, and for reasons which may be stated very shortly.

There are many property holders in the city already who are complaining of the high and growing rate of taxation. If we adopt the Sooke Lake proposition, the cost of which is admitted by uncertain, before the population of the city has largely increased, the effect must be a substantial addition to the taxes now being collected from property-holders by the city treasury. By the judgment of the people deliyered yesterday the area from which water rates are collectable cannot be increased to any material extent. Any one who has his finger upon the pulse of public opinion is well aware of the fact that there is a growing conviction in the city that the time has come to put a check upon what is termed the extravagance of municipal government. Just as surely as the civic elections take place in January next we shall be confronted with a movement to place in power a council pledged to the exercise of the greatest economy in the management of sunited and the Atlantic, in which pledged to the exercise of the greatest economy in the management of sunited and from which the country's complete marryers to the smaller classes will be confronted with a movement to place in power a council pledged to the exercise of the greatest economy in the management of sunited and the Atlantic, in which actually a supplied to the exercise of the greatest economy in the management of sunited and the Atlantic, in which the management of sunited and from which the country's and the management of sunited and from which the country's and the management of sunited and from which the country's and the sunited and from which the country's and the sunited and from which the country's and the sunited and the atlantic, in which the sunited and the atlantic, in which the sunited and the atlantic, in which the sunited and the sunited and the atlantic, in which the place in power a council pledged to the exercise of the greatest economy in the management of sunited and the atlantic, tremely doubtful, and for reasons Little Canadians laughed in derision which may be stated very shortly.

There are many property holders in the city already who are complaining of the kigh and agreement of the kigh and agreement and administering it. We had neither the yards to build nor the material to defensive fleet will be entirly drawn. Master builders are already on the way across the ocean to survey the field and like the present when the to decide upon the points at which the the world are undergoing the light vouchsafed to us, is that unless Elk Lake can withstand a greater draft upon its supply than seems possible, the demand for water will become so acute that the city will be forced to procure that supply from the point from which it can most easily and speedily be obtained. The management of the Esquimalt Water

Worke (Company with its usual acute)

localed upon the points at which the toword are undergoing such rapid changes, we cannot ignore any movement, however seemingly irrational, for they all have some meaning and bearing upon our national life. I make no attempt to solve the problem, nor of I wish and agreater importance of the subject. My only purpose is to show you a picture from life at our very door, leaving you to intelligently examine the picture and form your own conclusions.

ENQUIRER. portance as indicating that we shall before the passage of many years have ENTERTAINMENT OF established at two ports of the country basic industries which give life to many subsidiary industries

The gentlemen interested in the Es- Sir John and Lady Thompson to quimalt Water Works Company did not appear to be greatly depressed at the result of the voting on the by-laws have been filled to dverflowing had the agreement with the tramway company been rejected also. Yet we do not know that they need have any misgiv ings as to the disposition of all the power their works are capable of genwater by-law be called progressive or the 7th of next month. The final arwater by-law be called progressive or retrogressive, a sufficient number of them voted for the tramway by-law, which is undoubedly a progressive measure. As speedily as circumstances will permit ten thousand horse power will be developed at Jordan River for distribution in Victoria and neighborhood. All that tremendous force will be put to practical uses and it cannot be considered to the progressive measure. As speedily as circumstances will permit ten thousand horse power will be developed at Jordan River for distribution in Victoria and neighborhood. All that tremendous force will be put to practical uses and it cannot be considered to arrive here on the 7th of next month. The final arrangements were made in so far as it was possible, several new committees being appointed and details attended to. F. Napler Denison occupied the chair, and there were also present:

Mrs. Eberts, Miss Eberts, Senator Macdonaid, Mrs. Shallcross, Mrs. Fitzgibbon, Dr, and Mrs. Haseil, Dr. New-THE MAYOR, THE PRESS AND THE BY-LAWS.

The Mayor says the influence of the newspapers of Victoria is nfl, if not dead. The Mayor also says the newspapers killed the water by-law. The statements of the Mayor seem to contradict each other. If the newspapers killed the water by-law, by what process of reasoning can the conclusion be be needed. The mayor seem to contradict each other. If the newspapers killed the water by-law, by what process of reasoning can the conclusion be be needed. The mayor seem to contradict each other. If the newspapers killed the water by-law, a larger majority believes it did a still better day's work in kill-day in the water by-law. A larger majority believes it did a still better day's silled the water by-law, by what process of reasoning can the conclusion be be not case the majority is well pleased. Cotaworth, E. Schoffeld, Capt. Crawford, R.N. J. K. Rebbeck, F. Kermode, B. B. Maker, E. A. Wallace, H. Croft, H. F. Pullen, E. Jacobs, Mrs. Day, Mrs. Cooper, J. R. Anderson, F. Napier Denison, P. Napier D pleased. On the whole, therefore, there town, to be her guests at the Empress is reason for congratulation,

One rather remarkable feature of the campaign which ended yesterday evening was the bitterness which was displayed by some of those who took an as to the merits of the measures. The fight waxed warmer at times than most municipal contests. It approached a political mix-up in its heat. Why such a spirit should have been engendered we are at a loss to understand. Advocates and opponents of the by-laws were undoubtedly animated by a desire they believe to be its true interests. There should be no change of attitude now that necessity demands a possible alteration of plans.

"HOLY ROLLERISM."

not say that such animadversions against the Mayor and council are justified. We simply draw attention to the facts, provoked thereto by the criticisms of the Mayor. He owes a great deal, perhaps more than he appreciates or can ever be made to appreciate, to the press.

## HUGE SCHEME OF IMMIGRATION

BRITISH GOVERNMENT AND C.P.R. JOIN HANDS

Now Perfecting Plans so as to "Pump In" Settlers to Canada.

Amplifying the announcement in the Times of yesterday that G. Bethune Gray, British and European manager of the C. P. R. land department, is now visiting Vancouver Island perfectnow visiting Vancouver Island perfectling a scheme for the encouragement of
British settlers to this section of the
province, reference was not made to
a further important point made by Mr.
Gray. This was to the effect that the
British government, co-operating with
the C. P. R., is considering the details
of a huge scheme aiming at carrying
into effect Kipling's advice as to
"pumping in" British immigrants to
Canada.

The G. P. R. plans for the coloniza-

Zanada.

The C. P. R. plans for the coloniza-tion of Vancouver Island, outlined in yesterday's Times, by which the Brit-ish settler is placed on land on excep-tionally favorable ferms, constitute but ish settler is piaced on and on excep-tionally favorable terms, constitute but the thin edge of the wedge for a much more pretentious project. The most exhaustive inquiry is now being made into the question of unsettled lands in the Canadian West—and particularly in the province of British Columbia— and when all the data has been obtain— ed relative to sections available for and when all the data has been obtained relative to sections available for settlement, the huge immigration project in which the British government will take a hand will be launched.

will take a hand will be launched.

This much was conveyed by Mr. Gray in conversation with a Times representative yesterday, and he implied in his conversation that the Imperial government was actuated in this move no less by considerations for relieving the congested masses in the British Isles than by a desire to ensure that the leaven of British seatiment in Canada shall not be submerged by the tremendous influx of settlers from the United States.

States.

The details of this huge scheme will of necessity take considerable time in perfecting, but that such a movement has been undertaken with the sanction of the British government is of the of the British government is of the highest importance and significance. In furtherance of his present mis-sion to British Columbia, Mr. Gray, on concluding his inspection trip on Vanson to British Columbia, ar. Gray, of concluding his inspection trip on Van-couver Island, will visit the Kootenay and Okanagan districts and return east via the Crow's Nest Pass railway.

MINES FURNISHING

RAILWAY FREIGHTS

Interesting Figures Are Given by Dr. James The Provincial Gazette this week Douglas.

province of British Columbia: John A. Muir, of Fruitvale, West Kootenay; Duncan A. McFarland, of Riondel, West Kootenay.

Dr. James Douglas in a recent article contributed to the Canadian Mining Journal, dwells instructively upon
the inter-relation of railroads and the
mineral industry.

It is surprising to learn, or to be reminded, that the first transcontinental
failroad, that across the Isthmus of James Maitland-Dougall to be a chief provincial constable in and for the county of Atlin, at Hazelton, from the 15th day of August, 1909. W. C. Leacey, of Elko, Kootenay, to Panama, was built to satisfy a mining Panama, was built to satisfy a manageraze. This line, connecting Navy Bay on the Caribean sea with Panama, 48 miles in all, constituted a short cut to California, and for a time the road depended almost entirely upon mining. a provincial constable from the 1st To be deputy mining recorders: J. H. Patterson, for the Omineca mining division, at Skeena Canyon; Percy

Ralph Skinner, for the Skeena River mining division, at Copper City. The extent to which the development of mining in the western states de-pended upon railroad building, and the ince of British Columbia: Reginald William FitzGerald Sargent and Percy esent dependence of many of these ilroads upon freight derived from The following companies have been

railroads upon freight derived from mining, have hardly been recognized until recently. And Dr. Douglas has done more than any other writer to bring about this recognition.

The comparative proportion of freight attributable to mining in the United Control of Conda are given by States and in Canada, are given by Dr. Douglas as 53.09 per cent, of the United States in 1906, and 35.92 for Canada in 1908. The total mining freight hauled in Canada in 1907 was 55,497,885 cons, and in 1908, 63,019,000 tons. The tons, and in 1908, 63,019,000 tons. The corresponding figure for the United States (1906) was 425,450,476 tons. In the latter country coal and iron ore are the two most important commodities. It is a state of the commodities of the commodities of the commodities. is the fundament of many thousands is the fundament of many thousands of miles of ratireads. Conversely, these lines would never have been created but for the industries based upon the manufacture of iron and steel.

Similarly, the metalliferous mines of the United States support largely or in part many individual lines.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department,

Victoria, Aug. 27.—5 a. m.—The pressure has filled up over the Padfic slope and indications are favorable for an interval of fair weather in this part of the province. Showers have fallen at Barker-ville, Port Simpson, Tatoosh and Spokane, but the weather is chiefly fair; light frost occurred at Spokane. In the prairie provinces a low area of considerable energy is central at Winnipeg, weather conditions are showery and a thunder-storm-occurred at Qu'Appelle.

Forecasts.

Forecasts.

For 36 hours ending 5 p. m. Saturday.

IN POLICE COURT.

Japanese Liberated Although Circum-stances Were Rather Suspicious,

In the city police court this morning two drunks came in for fines at the hands of Police Magistrate Jay.

A Japanese employed by P. Cromble, of the Everett hotel, on the Esquimate

road, was charged with stealing tv forins and other cash to the amount of forins and other cash to the amount of \$15. The evidence of the proprietor of the hotel was that the Japanese had been employed for many years by him On Sunday while the proprietor was away from home he was supposed have taken the money from the bar. Detectives Macdonald and Heath

told of searching the room of the Jap and finding under a mat two florins which the proprietor said resembled the nes taken. Magistrate Jay, however, said h could see no evidence to convict the Jap. At the best the circumstances suspicious but not enough to con-

vict on.

Sam Taylor was charged by H. Cal low with using very offensive language in the hearing of Mrs. Callow. Mr. Callow asked that Taylor should be bound over to behave himself. He did

not press for a heavy fine.

Further hearing of the case was adjourned until to-morrow.

## CONDITIONS AT MINORU TRACK

VICTORIA HORSES ARE **NOT YET IN FORM** 

### All Racing Men Have Pleasant Recollections of Victoria.

(Special Correspondence.) Vancouver, Aug. 26.-With improve transportation facilities which the B C. Electric Company is putting "into force and with a sufficiency of water. Minoru racetrack, Lulu Island will be

the scene of a successful race meeting. The opening day's running has been somewhat spoiled by the softness of the track but this is improving every day and eventually it will become very

fast.

The Victoria horses, while figuring well on the whole, will have to contend with the Butte horses which owing to early arrival have on the first few days been in better form, J. O. and G. H. Keene winning two races Monday again with Boas and Nagazam. Victoria horses are not yet over the journey and stoppage of training caused thereby

hey and stoppage of training caused thereby.

The plant of the British Columbia Thoroughbred Association is complete and the situation of the course at Lulu Island is ideal despite the distance from Vancouver. Monday the service running well conveyed 600 paid admissions to the course under thirty-five minutes, and returned them to town at fifteen minute intervals.

The track badly needs water, and two days' rain would serve to harden it. Rain on Saturday night was bene-

Rain on Saturday night was bene-

Leighton, however, has nothing to say on the matter.

There are rumors here that the Minoru Club will close down for the fair races at Victoria and then resume for the balance of sixty days, to be run before the horses all go south to Emeryville at the end of the year. There is also a big rumor of action here by the Moral Reform League if the Minoru Club does not keep all the betting confined to the track. The Reform League, it is said, will work for the suppression of pool rooms in the city. All the horsemen are still enthusiastic over Victoria, and the late meeting is over Victoria, and the late meeting is heard of on all sides for its cleanliness.

sport and general enjoyment.

Betting at Minoru ring is far heavier than at the Willows, both in the aggregate and in the size of the individual wagers. On Monday \$1,200 from one man went on Lihair Ray in the second race. The filly ray third between second race. The filly ran third, being beaten by J. Humbrechts' thirteenyear-old Aunt Polly, with Lycurgus up, and Pacifico, with Archibald up.

## CHANGE MADE IN **GAME REGULATIONS**

### New Rules as to Shooting Grouse and Cock Pheasants on Mainland.

#### YACHTING. VANCOUVER RACES.

VANCOUVER RACES.

Twenty-three yachts are entered for the Buscombe cup race, which will be sailed on Saturday afternoon over a twelve mile course on English Bay, at Vancouver. Alex Marshall will officiate as starter. The handicaps which have been arranged by the committee give the following time allowancies: Windvogel (2,00); Marietta, (2,30); Aloah, (2,32); Vampire. (2,34); Tilli-lencairn, (2,34); Verona, (2,34); Tilli-lencairn, (2,34); Tilli-lencairn, (2,34); Verona, (2,34); Tilli-lencairn, (2,34); Till (2.30); Aloah, (2.32); Vampire, (2.34); Glencairn, (2.34); Vampire, (2.34); Glencairn, (2.36); Tillicum, (2.34); Redskin, (2.36); Adanas, (2.36); Dione, (2.36); Ashore, (2.47); Gazeeka, (2.47); Intrepid, (2.52); Elsa May, (2.52); Minerva, (2.53); Haidee, (2.53); Canuck, (2.53); Vancouver, and Barlow Galbraith, of Iyanhoe, (2.53); Madeline, (2.57); Jola, (3.06); Britannia, (3.02); Alexandra.

The Buscombe cup was won last year by Skipper Deane's Alexandra.

half the cost of other soap, Sunlight does the whole washing in half the time, yet without injuring the most delicate fabric.

### CHAMPIONSHIPS FOR ISLAND SWIMMERS

### Contests Will Be Engaged in Next Saturday at Gorge.

The Vancouver Island swimming championships, which are to be competed for next Saturday at the Gorge, promise to be a big affair. The water athletes from this island and also the adjacent islands will compete for the places as champions. All those competing must be registered, and residents of the islands for at least two months. These acquatic sports are being held under the sanction of B. C. A. A. U.

### JOE GRIM HAS BEEN DECLARED INSANE

"Iron Man" Will Be Placed in an Asylum in Australia.

San Francisco, Cal., Aug. 27.-Joe san Francisco, Cal., Aug. 21. 30e.
Grim, the "iron man," whose steel jaws
for six rounds have withstood the
punches of some of the best and biggest heavyweights the world has ever
produced, has been declared insane,
and is about to be place in an asylum.
In Australia, according to advices ren Australia, according to advices re

numerous beatings that the

The numerous beatings that the plucky Italian took undoubtedly are responsible for his mental downfall.

Grim's last battle in America was at Oakland where Big Al Kaufmann essayed, but failed to put him away in six rounds, After that Grim sailed for Australia. After a number of unimportant battles Grim challenged any Australia. After a number of unimportant battles, Grim challenged any fighter in the world to put him away in six rounds, Such fighters as Bob Fitzsimmons, Jack Johnson, Joe Thomas, Jack O'Brien, Tommy Burns, Joe Gans, Jim Barry, Jack Blackburn, Hugo Kelly and many others attempted to knock him out, but fell down. The only man who ever turned the trick in six rounds was Sailor Burke, the New York heavyweight.

### READY FOR HARD LACROSSE MATCH

he New York heavyweight.

### Victoria Players Will Meet New Westminsters Here To-morrow.

two days' rain would serve to harden it. Rain on Saturday night was been ficial, but owing to the water tank failing down Friday night the club has had to rely on nature for its water supply. This defect, however, is being remedied.

The mile track, with its two long stretches and wide curves, helps to wards true running of horses, and while good jockeyship is most valuable, the races are nevertheless won on speed down the long home stretch.

Archibald has admirers here who expect him to figure well. Harris, the Keene stable Jockey with two wins on Monday, and Stille, an old timer, are, with Licurgus, his biggest oppenents. For two days' racing the Victoria leaden had landed but one win, while both Lycurgus and Harris piloted three. Archibald was in the money more often than the others, however, and has had a bigger percentage of mounts.

A racing publication here says that the Victoria country Club is planning to the matter, and the financial end of it, according to the publication, is in the hands of 8. Perry Mills for arrangement. Mr. Leighton, however, has nothing to say on, the matter,

There are rumors here that the Min-

struggle they've had this year.

The Royal City team is expected to arrive in this city this afternoon, and they are also confident of winning.

The line up of the two teams will be

The line up of the two teams will be as follows:

Victoria—Mould, goal; McArthur, point; S. Redgrave, cover; Fairall, 1st defence; Owens, 2nd defence; L. Redgrave, 3rd defence; Leo Sweeney, centre; Carss, 3rd home; Young, 2nd home; Dempster, 1st home; Hancock, outside; Julian, inside.

Westminster-Munn, goal; Digby, point; Pearson, cover; Galbraith, 1st defence; Patchell, 2nd defence; Gifford, 3rd defence; MacKenzle, centre; Fitzgerald, 3rd home; Sangater, 2nd home; Smith, 1st home; Henry, outside;

## LAWN TENNIS.

CLOTHIER WINS MATCH. Newport, R. I., Aug. 27.—Although he played a remarkable game and pushed his opponent to the limit, Mc-Loughlin, the Pacific coast expert, was defeated yesterday by Clothler in the final round for the tennis championship. McCloughlin was at his best in the third set which he won from Clothler are the second of the second o Times vs. Colonist

## LAST TRAP SHOOT OF VICTORIA CLUB

Large Crowd Expected at Langford to Celebrate Closing of Season.

The Victoria Gun Club will hold a olg shoot on the 29th inst. to celebrate closing of the season, which has been one of the most successful in the history of the old-established institution. Every shooter in the city is invited to take his gun and go out to 
Langford Plains to take a parting 
shot at the clay pigeons. There will 
be a great many events and three trophies will be shot for.

Perhaps the most important event of 
all, certainly the one that will attract 
most attention, will be the shoot for

most attention, will be the shoot the Curtis & Harvey trophy. This been up for competition on several oc-casions, and has been won twice each, by Lenfesty, Weller and Leavelle. If
either of these three crack shots win

### SLOW TRIP CAUSED

BY BENT PROPELLOR

#### Steamer Queen. Arrived This Large Cargo of Wheat for Man-Morning With Large Cargo and Passenger List.

Steamer Queen, which was due to arrive from San Francisco last night, did not get here until this morning about 8 o'clock. She was delayed considerably by having bent a blade of her propeller. The injury was received on the last trip to Alaska, when she ran against an iceberg. Since that there has been no opportunity of having repairs made but she will be docked as soon as she reaches San Francisco. She will not be able to miss a run as the Umatilla is making a trip to Nome, and there is no other vessel to relieve her. The Queen was as full as she could pack with passengers and freight. Some of her boats were swung out on her davits in order to make room on deck for fruit, and her hold was crammed with general cargo. For this port she had 119 tons and nearly 2,000 tons for Seattle. Steamer Queen, which was due to

Her passengers numbered 163, of whom the following debarked here: F. Labode, E. Nicholas, J. Daley, E. Price and wife, A. G. Thompsen, G. A. Mur-phy, E. L. Deal, Miss Fisher, Mrs. McCloud and five second class.

### KUMERIC ARRIVES

FROM PHILIPPINES

Andrew Weir Liner Goes Direct to Vancouver With Large Cargo.

Steamer Kumeric from the Philip pines, China and Japan arrived in quarantine last night and this morning passed on to Vancouver without calling at this port. She had a small freight for Victoria, but as it was not easily within reach and there were no pas-sengers. Captain Mathie decided to go on without calling.

Cantain Mathie stated before leaving Captain Mathle stated before leaving that the voyage across was a particularly pleasant one, nothing of any importance happening on the run. He had 18 Chinese passengers and one European, all bound for Vancouver, and of the 7,000 tons of freight over 1.4000 was for the Burrard Inlet port. When the Kumerle last visited this port the second mate had installed a small wireless system, but the lack of an acrial made it difficult to work at any distance. Since she was away a larger aerial has been strung and this

larger gerial has been strung and this larger aerial has been strung and this is a great aid in reaching a distance.

Word was brought from China of disturbances in Thibet. These have been precipitated by the sending of Chao Erh-Feng by the Chinese government to take charge of Anterior Thibet. The chiefs in that country who have hith-erto exercised absolute power, object to this power being curbed and refuse to obey the new ruler. The Chinese representative advises the government to go slowly in the matter and not to precipitate a struggle which would be only playing into the hands of the Dalai

Lama.

In spite of the little success which has attended the building of the Japanese volunteer fleet, the vessels proving to be white elephants in the merchant srvice, the Marine Association of Tokio has decided to build a third volume. roke has decaded to under a track of the uniter cruiser with a greater size and speed than either of the others. This vessel, it is understood, is to be laid down in the near future, and will be so constructed that it can be utilized for war purposes at yery short notice.

### **NEW SUPERSTITIONS AMONG SEAFARERS**

Within a recent period of years—a riod in which the seas have been volutionized by the modern transatlantic liners and such wonders as wire-less telegraphy—there has come, too, a change in the old superstitions that have obtained for a century past among the men of the ships. New superstitions have crept into the minds of the modern seafarers, and many of the mysterious and peculiar beliefs of other days have either disappeared entirely or have been altered in one other days have either disappeared entirely or have been aftered in one way or another. In some instances, saliors to-day take just the reverse view of a superstition that has been with their forebears for generation after generation of hardy seamen.

Where, for instance, not more than three years ago, it was considered bad juck to sail on a Friday, the busy

uck to sail on a Friday, the busy schedules of the merchant marine have een instrumental in making the been instrumental in making the sallors of to-day forget their former belief in the bad omen of leaving port on the "unlucky" day. The disregard of the Friday superstition is becoming general among the seamen and, as was pointed out by an officer of a certain vessel only the other day, is a fair vessel omy the other day, is a fair criterion of the change in superstitions, inasmuch as, battling against the specific change, there have been examples of several big "Friday disasters" in the last two years, in the number being the well-known ones of the Thomas H. Lawson and the Respublic

A black cat aboard ship used to be steamer considered a sign of bad luck by the steamer sailors. Not so to-day. A black cat, when not disregarded entirely, is quite

that every sailor who drives a n through a shark's tall will have go luck.

Aug. 30
Aug. 31
luck.

Almost every sailor has a picture of his sweetheart fastened on the wall close by his bunk. In former days there was a general superstition that signified that the girl was going to marry someone else. Now when a picture fails, the sailor concerned takes it to believe that his sweetheart will be waiting for him on his return.

Sept. 3

Aug. 25

With the advent of wireless telegraphy, there has come a superstition that bad news may be warded off if the mast that is a part of the apparatus is patted thrice with the palm of the hand.

"Go and ask the cook"—a seaman's inevitable reply to all irrelevant questions—has been elaborated in the last year to, "Go and ask the cook's sister," and it is related that Captain Turner, of the Lusitania, went so far recently as to alter the time-honored reply to

and it is related that Captain Turner, of the Lusitania, went so far recently as to alter the time-honored reply to, "Go and ask the ship's cat."

Albert Mansfield, formerly of the Gothic, of the White Star line, salling between London and New Zealand, says that many passengers believe that they will feel a bump, or something similarly neguliar, when they cross the similarly peculiar, when they cross the equator. This is regarded as a "passenequator. This is regarded as a "passen-ger superstition" among the seamen. The latter have come to believe recent-ly, moreover, that if a passenger really imagines he has feit a slight bump while crossing the equator, and con-fesses it, it is a sign that they will have a big "pay day." Pay day, in fact, is one of the chief considerations of all seamen and many are the sufact, is one of the chief considerations of all seamen, and many are the superstitions that concern it in one way or another. Seamen have believed for many years that they could bring about a "big.pay day"—as they call it—by scratching the paim of their right hand. A new belief is that they can bring about an early raise in pay by scratching the palm of the hand with a silver coin. Another new superstition a silver coin. a silver coin. Another new superstition is that they will suggly win at cards when they arrive in port if they are careful to cross their fingers the monent they sight land,

STEALING A SMACK

There was quite an old-world flavor about an adventure related at Chichester, Eng., when two tramps, John Harrison and Thomas King, were charged with stealing a smack and a dinghy.

The smack was the Two Brothers, and she belonged te George and Pseph Raglass, Bognor fishermen. The owners intended setting out on a fishing trip, but on going down to the beach found their boat had disappeared. Though they scoured the Channel in a motor boat for hours, they could find no trace of the smack.

boat had disappeared. Though they scoured the Channel in a motor boat for hours, they could find no trace of the smack.

Some hours later, however, William and John Arnell. Selsey fishermen, saw the John Arnell, Selsey fishermen, saw the Two Brothers four miles off Selsey Bill. She seemed to be in difficulty. The two rough-looking men in her were halled, and one of them replied: "We are going across."

and one of them replied: We are going across."

The Arnells took this to mean that the men waited to crois to the Isle of Wight, and they advised them to put back, as the tide was contrary. Instead of doing this the men clambered into the dingby and made for the open sea.

The Arnells took the Two Brothers in tow, and were thus unable to chase the fugitives. Instead, they proceeded to Selsey, and informed the coastguard of the matter. Chief Officer Godden at once set out in pursuit, taking the precaution of arming hie men. They sighted the dingby a mile northeast of Owers lightship and overhauled her in a very choppy

considered a sign of bad luck by the sailors. Not so to-day. A black cat, when not disregarded entirely, is quite often believed to be a lucky omen. Among the seamen on vessels that round the Cape of Good Rope, one of the oldest superstitions has recently been turned upside down. It was formerly believed that the presence of Mother Carey's chickens near the vessel indicated that bad weather was coming, while, nowadays, the presence of the birds around the ship is taken to signify a continuation of far weather.

Capt. Kelly, of the Westland, is auch therefore the wind, Another recent belief is that his ing the men of the salling ships of to-day, it is believed that the dropping of a coin over the stern will increase the wind, Another recent belief is that his ing on the decks will freshen the breeze. If porpoises are seen following the ship, recent superstition holds that the wind is going to continue in the same direction.

The of the latest sea superstitions is that it is had luck to get the first look at the new moon through giass—that it is had luck to get the first look at the new moon through giass—that it is had luck to get the first look at the new moon through giass—that the presence of the oldest beliefs of men of the sall peep over the new moon while they are looking at it, they will have a tresome time, instead of a merry one, after they have reached port, To get the first glimpse at the new moon over the left shoulder means foul weather is at hand, according to present-day sea belief, while the initial peep over the right shoulder signifies the special peep over the right shoulder signifies the special peep over the right shoulder means foul weather is at hand, according to present-day sea belief, while the initial peep over the right shoulder means foul weather is at hand, according to present-day sea belief, while the initial peep over the right shoulder means foul weather is at hand, according to present-day sea belief to the initial peep over the right shoulder means foul weather is at hand, acc

## OF PANAMA CANAL

## How Lumber Carriage Will Be Expedited

to meet, It will be possible for the ship- FIFTEEN HUNDRED per to load his lumber on the Pacific coast, send it through the canal to the Atlantic and then reconsign from sor Atlantic point to the interior, paying a local for its rail transportation. It is probable that all of New England and the states along the Atlantic seaboard

can thus be served, and it might even

mever be a reality until the all-water movement at present from the Pacific coast to the New England and other Atlantic states but the long trip around the Horn has made it commercially impracticable. The sailing vessel consumes three or four months in the journey, with consequent expense in the time of both ship and crew. The steamer following the same path must contend with a tremendous coal consumption which decreases her cargo capacity to make the seme path must contend with a tremendous coal consumption which decreases her cargo capacity to make room for coal and makes the burning of that coal an expensive item.

Despite these disadvantages, both steam and sailing craft has been able to make a rate from the coast slightly less that the all-rail rate from the Pacific to the Atlantic. They have not been able, however, to make this rate enough of the business or to make it possible for the shipper to ship to Atlantic to cast ports and reconsign to the interror.

The Panama canal is avail. Illes of commerce but no other is like to the Atlantic of the business or to make the second of the susiness or to make the rate enough of the business or to make the rate enough of the business or to make the rate enough of the business or to make the second of the shipper to ship to Atlantic the apparation of the sea, he beheld the illest the railroads would be entirely unable to exist the railroads would be entirely unable to evictorious."—"MA.P."

## MILES IN THE NORTH

# A Missionary's Round of Duty

The reverend father has recently returned from a trip to the northern mission posts, which began on the 14th of May. During this period of three months, Father Husson had travelled a distance of fifteen hundred miles, the couse, roughly speaking, being from Edmonton along the usual route to Peace River Crossing, down the Peace River to Fort Vermillion, then to Fort Chipewyan and a return by way of the Athabasca river.

The story, in the words of Father Husson, is as follows: "We left Edmonton on May 14th, when little of the ice was broken up on the northern rivers. From Athabasca Landing we proceeded by steamer to the mouth of Lesser Slave river. From this point we proceeded by pack horses to Moose River and then by boat to Lesser Slave Lake. The lake was still strong in the grip of the Ice King but not sufficiently as the street of the reaching to the test of the lake was still strong in the grip of the Ice King but not sufficiently as the street of the reaching to the test of the lake was still to be taken.

eas; walking. At the Lesser Slav Lake settler and wagon and were driven to Peace River Crossing. After staying a few days at the mission here I went aboard a raft with a fellow passenger and the two of us proceeded down the Peace

A Missionary's Round of Duty in the Mackenzie River

Country.

Standing on the deck of a Mackenzie river boat, in the garb of the Roman Cathelic priesthood, with a large crucifix in his girdle, with his hand in the attitude of benediction, with kindly, sun-browned features wreathed in snow white beard and hair, is a typical picture of Rev. Father Husson, says the Edmonton Bulletin.

Away in the rear of the venerable priest stretches some broad river of the north while a most sultable backs ground is the row of tall pines which is from the water's edge on the farther Husson could be seen stepping

time be easily available to take its place.

The one handicap with which the manufacturer in the extreme West always has had to contend has been the long haul and heavy freight rate across the country. Lumbermen believe that these rates could be lower than they are and still afford the railroads usmented business and a decent profit. However, they could not be greatly lowered, It is certain that really chean transportation of forest products will never be a reality until the all-water or the profits of the relicond to the profits of the railroads usgmented business and a decent profit. However, they could not be greatly lowered, It is certain that really chean transportation of forest products will never be a reality until the all-water movement able. There is an all-water movement at one contend the profits of the relicond to the warm canal is a wait of the manufacturer in the actrosic that the actively engaged in the specific onest lumber of superintendent of missions with headquarters at Edmonton. This the habet of the relicond to the profits of superintendent of missions with headquarters at Edmonton. This can be actively engaged in the maching and the capacity of superintendent of missions with headquarters at Edmonton. This capacity of superi r capacity of superintendent of missions, with headquarters at Edmonton. This long period of service, very often accompanied by severe trials and hardathips, has left Father Husson still a young man at sixty years of age. He is strong in body, jovial in spirit, and acute of intellect, giving every evidence of long continued service in advancing ill the labor of love among the imfabitants of the far north.

Another picture of Father Husson may be had at the Roman Catholic monastery in Edmonton, on the corner of Tenth street and Victoria avenue, The reverend father has recently returned from a trip to the northern mission posts, which began on the 14th of May. During this period of three months, Father Husson had travelled a distance of fifteen hundred miles, the course, roughly speaking, being from Edmonton along the usual route to speace River Crossing, down the Peace River to Fort Vermillion, then to Fort

Opposite Spencer's

herd of buffalo in the world has been the proud boast of Wainwright to the proud boast of Wainwright to the proud boast of Wainwright to the reserve and midway between the town and the park were of this claim to distinction. The stranger must stop and hear the tale. The business envelopes of the merchants herald it abroad. In the dining room of the town's biggest hotel is a large wall seene painted by a local artist in which is portrayed a local artist in which is portrayed a group of huge bison feeding by the shore of a small lake. There is no paint wasted on the landscape. 

wino is prevented from seeing the head by stormy weather. The Buffalo Baseball Team is the pride of the town. A Buffalo Baseball Team is the pride of the town. A Buffalo Baseball Team is the pride of the town. A Buffalo Baseball Team is the pride of the town. A Buffalo Baseball Team is the pride of the town. A Buffalo Band has recently been organised and at preeming a theater is being construented buffalo an exceedy management, was for eleven years in charge to him to buffalo are kept for hire. All this goes to show how large the bisen loom up on Wainwright's horison. On Dominion Day there were nearly a hundred visitors; to both an eight of the herd. He would be a difficult matter for visitors to obtain a sight of the herd here. It would be a difficult matter for visitors to obtain a sight of the herd here. It would be a difficult matter for visitors to obtain a sight of the herd house from the Battle river conceed, one for not further distant than the length of the bridge from the Battle river cover of Butter for the west, when the mile long the form the Battle river cover of Suffern here. The would be a difficult matter for visitors to obtain a sight of the herd house the valley of the Battle river cover of Suffern here allowed head of buffalo are continued to the visitors to obtain a sight of the herd house in the recent here are allowed in the process of the Yellowstone being which are continued to the river to the soult for several miles extending the animed and the river to the soult for several miles extending the animed and the recent park.

It is a full Marathon distance from the methal of the Archael and the process of the Yellowstone-being matter than the length of the bridge from the Battle river corner of Suffern here. The world have continued the process of the Yellowstone-being matter than the length of the bridge from the Battle river corner of Suffern here. The world have the recent process of the Yellowstone-being matter than the recent process of the Yellowstone-being matter than the recent p there were nearly a hundred visitors from the tows and vicinity to Bussel.

Mr. Bills will go to Banft to oversee for fore. Wright's horison. On Dominion Day the recent shipments. Next month the recent shipments. Next month of the westward of Mt. Arrowsmith, and the word of the westward of Mt. Arrowsmith, and search the loading of the Brett Here. To fore. Wright's 15 128 miles distant from the word and vicinity of the Gr. T.-1. The town is almost a mile said of the entrance to the park. Approaching from the west, when the mile long the park areas of 16,560 at the word the word that the entrance to the park. Approaching from the west, when the mile long the park areas of 16,560 at the word that the entrance to the grant of the William of the Willi

to the point where the park touches in the park. It brought the scent of cat, those on the island being nearly country, is not often found on the towering snow-capped mountains, pel-

regret that action was not taken to preserve the bountiful gifts of nature. Let it not be understood that I mean hampering the lawful business of the lumberman, or placing vexatious restrictions to his detriment and loss. On the contrary, I quite acknowledge the value of his calling and the immense importance of the industry to our country. But I do maintain that mense importance of the industry to our country. But I do maintain that the methods pursued should be put-sunder strict supervision and under equitable safeguards, not only in the interests of the country generally, but in those of the lumbermen themselves.

In conclusion let me again express the hope that the forestry commission now sitting may evolve some practical scheme whereby the wishes and hopes expressed in the foregoing quotation may be realized,

J. R. ANDERSON.

on Wednesday Night.

with Woman's Canadian Club, Vancouver, was the hostess of a luncheon on Tuesday at which the guest of honor was Mrs. Jean Blewett, the Teronto writer, swho is paying a visit to the coast. The officers and executive of the club were among those invited. The table was prettilly decorated with sweet peas and the covers were laid for twenty.

An interesting visitor to the coast recontly has been Mrs. (Rev.) McGregor or Orillia, Ont. known in the literary world as Marian Keith, author of "Duncun Polite." "The Silver Maple" and "Treasure Valley." all novels of a high moral tone. Mrs. McGregor was married in Orillia on 27th July, and with her husband, one of Orillia's most popular young clergymen, has been touring western Canada en a honeymoon trip.

Her Excellency, Countess Grey, and her daughter, Lady Evelyn Grey, arrived from Vancouver yesterday afternoon, aboard the Lleut. Governor's steam yacht Dolaura. Included in the vice regal party were: Captain Fife, A. D. C., and Mr. Seveson Gower. Comptroller of the household, Her Excellency and Lady Evelyn were driven at once to Government House where they will be guests during their stay in Victoria.

An interesting weedling was solemnized in Christ church, Vancouver, on Tuesday morning, when Mr. Walter McRaye and Miss Lucy Weblings were united in marriage. Mr. McRaye is well known throughout Canada as a clever entertainer, and will be heard in Victoria on the evening of September Tih, when he and Miss Pauline John-"Polly of the Circus," Frederick

#### THE IMPORTANCE OF WOMAN'S WORK

The Ladies' Home Journal for Sep ember contains the following pertinent equiry from a curious woman: "Why devices, the vaccum cleaner and the fireless cooker, so essentially women's things, should have been invented by than men?"

he sewing machine, the baby carriage the rotary egg-beater, the ice cream freezer, the "foods" for infants—all in-

the rotary egg-beaut, the Lag regregar, the "foods" for infants—all invented by men!

"Why this thusness?" as Mark Twain would say. Is it because of laziness, or is it a genuine lack of interest in improving the home? Never, never could it be admitted that it is from lack of brain power.

Successful men are always those who improve on the methods of their fathers. Should not the same rule apply to women? The root of the whole matter seems to lie in the fact that women vastly underestimate the value of the social service which by nature belongs to them. But why do they underestimate it? There's the rub. Men taken as a whole treat their wives and families with courtesy and consideration, and as a rule, provide the best home they can afford. They realize, as women often do not, that the welfare of society depends upon the home. The art of making a good home underlies all professions and all occupations and all moral betterment, and when women come to realize this fact, more fully they will be fewer juvenile courts required.

We have heard a great deal in the past about the adaptability of woman; how she can drive a nail with a stone instead of a hammer; how she can transform the meanest shack into a home by the ingenious use of a few yards of bunting, etc. There always have been such women, there always will be and the world has been and will be the better because of them, the pity of it is that they are so few. It is time for women as a whole to begin to make good. The average

the pity of it is that they are so few. It is time for women as a whole to begin to make good. The average home may be made a great deal better than it is by the application of the ingenuity of women. Most inventions have been made by those who have used their cyes attentively. Steam had come out of the kettle on the stove for years right under the noses of thousands of women, but James Watt was the first to notice it. And he was a man! Other facts of like and greater importance awaiting discovery are still lying about in the kitchen. The common life is intensely interesting if one will but consider it, and study to turn common things to undiscovered uses. To mon life is the consider it, and study to turn will but consider it, and study to turn common things to undiscovered uses. To simplify domestic service, to reduce to keep house in a better way,

terday afternoon, the committee which had been appointed to look into the matter reported in detail on several places which were available, and the different rents which the society would have to pay for each.

The matter will be definitely decided to-morrow evening at the public meeting to be held in the city hall, at

Christ Church cathedral, has rented a house on Cook street and will take up his residence there the ist September. Mr. and Mrs. Barton and family are at present at Chemainus.

Mr. and Mrs. S. Teece and Miss Teece, of Enderly, Okanagan, district, who have been visiting the A.-Y.-P., are now the guests of Rev. A. N. Milier, and Mrs. Miller, Mensics street, and will remain for the week-end.

Dr. T. J. Ryan, Dallas avenue, who has been making an extended stay at Mount Forest, Ont., whither she was called by the liness and subsequent death of her father, is en route for home and expected to arrive in Victoria this week.

Mrs. A. S. Barton, Esquimalt, entertialized about fifty little folks at the Gorge park yesteday atternoon. After the varied attractions of merry-gorounds and other amusements had been exhausted a lovely tea, which was the crowning glory of the afternoon, was served in the Japanese gardens.

impression that she could do far more wonderful things if she thought it worth while. Never at any time does she seem to have exhausted her strength or her skill.

"Love's Old Sweet Song," is keenly

"Love's Old Sweet Sons," is keenly enjoyed by all who are inclined to be sentimental, and the illustrations of it are undoubtedly beautiful.

The Millionaire and Ice Man have not by any means exhausted their local hits, and their fun is so clean and wholesome that it is enjoyed by every-

The orchestral numbers throughout the week have been of a high order and are much appreciated.

### Anty Drudge Tells How to Economize on Coal.

Mrs. Thrifty—"My husband is in the coal business and it doesn't cost anything for fuel to boil the clothes."

Anty Drudge—"Your husband doesn't get his coal for nothing, does he? Besides it costs just half the wear of your clothes when you boil them, as they wear out just twice as fast. Use Fels-Naptha soap in cool or lukewarm water if you want to save time, bother and your husband's coal."

John D. Rockefeller says "it is not what we earn but what we save that makes wealth."

In washing clothes with Fels-Naptha in cool or lukewarm water, either in summer or winter, you save:-

Fuel-No necessity for hot fire or boiling water.

Clothes-Your clothes last twice as long when washed with Fels-Naptha, because they are not weakened by boiling, nor worn out by hard rubbing.

Doctor's Bills-You don't risk your health by bending over steaming suds or a hot fire and then going into the cool outer air.

Time-The Fels-Naptha way of washing takes less than half as long as the old washboiler way.

Labor-Fels-Naptha takes threefourths the work and all the drudgery out of washday

If these savings are worth while to you, follow directions for using Fels-Naptha printed on the red and green wrapper.

Insolvencies in the Dominion of Can-Insolvencies in the Dominion of Canada, as compiled for Dun's Review from statistics of R. G. Dun & Co., were 121 in number and \$85,997 in amount of liabilities. This is a considerably better showing than in the same month last year, when there were 134 defaults, with liabilities of \$1,218,-132. The most marked feature of improvement as compared with previous 132. The most marked feature of improvement as compared with previous months and last year is seen in the class including manufacturing lines, in which there were only 28 failures, with defaults of \$154,080. This compares with 35 failures, with defaults of \$481,-189, in July-last year, and 35 for \$207,-

tives of the local Liberal Associations.

The minister, who has taken apartments at the Empress hotel, will proceed in the D.G.S. Madge to William Head to inspect the station there.

Arrangements had not been completed at the time of going to press in respect to the likelihood of Hon, Mr. respect to the internal of the Fisher delivering a public address during his stay in Victoria. The minister may remain in the city until Monday.

LASH AND PRISON FOR VANCOUVER MAN

Pleaded Guilty to Charge of Assault and Robbery.

(Times Leased Wire.) Vancouver, B. C., Aug. 27.—While the virleks of his mother and sister rang nrough the court room, Clay Beers was d away to receive ten lashes and endure even years penal servitude. Beers, a oung man, obtained the confidence of a young man, obtained the confidence of a stranger, took him out to Stanley park, beat him insensible and robbed him. Beers pleaded guilty, and his counsel asked for mercy as it was a first offence, but Judge McInnes said the crime was too brutal to be lightly treated.

NEW-BRICK BLOCK FOR YATES STREET FIRM

Sylvester Bros. Will Build Handsome Structure Three Stories in Height.

One of the busiest sections of the city in respect to building progress is Yates street, between Douglas and Blanchard, and another handsome new block is to be erected by the enterprising firm of Sylvester Bros.

The structure, which will be three stories in height, with large basement, will cost in the neighborhood of \$16,000. It will be faced with pressed brick and will add materially to the appearance of that now busy thoroughfare.

ourhfare.

Messrs. Sylvester Bros. took out a permit for the new building to-day, and the same will be commenced immediately. It is expected that it will be ready for occupancy before Christ-

permit for a brick wood-shed to cost \$800, and Elizabeth Papke has also ob-tained a permit for an addition to her dwelling which will cost about \$850.

## WHAT NEXT?

The by-law for the expropriation of the holdings of the Esquimalt Waterworks Company having been defeated, there remain several ourses open to the city.

It may proceed to Sooke, by driv-ing a tunnel five and a half miles through the mountain, or by coming by a more circuitous route, avoiding the tunnel. Preliminary steps in this direction will be taken on Monday night if the motion of His Worship the Mayor, mentioned in another column, prevails, Any considerable steps in that direction would of course prohibit any fur-ther thought of Esquimalt as a

source of water supply. (a) A by-law may be submitted again next year, if it is so directed and if again defeated ample time remains to take advantage of the provision of the Expropriation Act which provides that "the city may expropriate a sufficient right of way through, over or under the lands of the Esquimalt Waterworks Company for the purpose of conducting water from Sooke watershed . . . and pro-vided further that the works for conducting the said waters from the Sooke watershed shall be begun within two years of the 15th of March, 1909, and finished within

eight years from said date," (b) The by-law may be re-sub mitted within sixty days provided it is petitioned for by one-fifteenth of the ratepayers entitled to vote on such a by-law and that they agree in the event of its defeat to defray the cost of its submission. This would mean that a second vote must be taken before October 25th and about 330 citizens who

26th and about 330 citizens who believe the majority of the rate-payers will on the second occasion support the measure must put up a guarantée of, roughly, \$250.

The opinion is said to have been expressed by a lawyer last night that the city had by its action in defeating the by-law exhausted its opportunity of again attempting expropriation under the act of last session. This view is not concurred expropriation under the act of last session. This view is not concurred in by some of the oldest and most reliable municipal authorities of the city, and even if it be correct it does not debar the city from exercising its rights of expropria-tion under the old act of 1873. While the general sentiment was that last year's act was more favorable for expropriation proceedings from the view point of the city, there are others who regard the original act as the better of the two.

STEAMER OHIO GOES DOWN NEAR KETCHIKAN

(Continued from Page 1.)

The Hero of Wreck.

Seattle, Aug. 27.—Gorge Eccles, the wireless operator who died in the Ohio wreck, was one of the most popular and efficient men in the employ of the United Wireless Company. He went aboard the Ohio April 1st, and was to have been transferred the previous trip into Cordova, Ataska, to handle the wireless for the Ataska Commercial Company. He was just congratulating himself that he was at last done with the sea. However, other arrangehimself that he was at last done with the sea. However, other arrange-ments were made and Eccles went out on the Ohio last Tuesday. Eccles had been in the employ of the United Wire-less for over a year, formerly having been on the Star of Portland, in charge of the station at Katalia, and before being transferred to the Ohio was the

Henri Farman, who sprung the great:
est surprise of the aviation week when he flew 100 miles in 2 hours and 35 minutes, four and six-tenths miles furtifier than Latham's previous world's record. The prize is the most vatuable of all, bringing to the lucky winner \$20,000 as a reward for his daring work. Throughout the contest Farman has been wery particular not to speed his machine. No one expected to see him break the record and capture the grandprize, when his machine slid gracefully from the ground at Bethany Plain.

Above the earth a short distance the aeronaut threw open the throttle and with the engine going full speed ahead, he shot through the air. Around the tall red and white painted posts which mark the course, he drove his aeroplane lap after lap. Not much attention was paid to the glidling machine above until near the close when it became noised about that Paulham's record was nearly sequelled. After that interest centrely and the painted points and the painted points are the most popular men in their employ. The officials of the Alaska Steamship Company have many resolutions on record given by assengers who travelled on the Star of Portland, in charge of the station at Kataila, and before being transferred to the Ohio was the operator at the Hotel Perry in Seattle. Officials of the United Wirreless, in speaking of Eccles, said this afternoon that he was one of the most popular men in their employ. The officials of the United Wirreless, in speaking of Eccles, said this afternoon that he was one of the most popular men in their employ. The officials of the United Wirreless, in speaking of Eccles, said this afternoon that he was one of the most popular men in their employ. The officials of the Alaska Steamship Company have many resolutions on record given by assengers who travelled on the Policy of the Alaska Steamship Company have many resolutions on record given by assengers who travelled to the Ohio, praising the work of Eccles and especially mentioning his polite and courteens manners. While ashor

he shot through the air. Around the tall red and white painted posts which mark the course, he drove his aeroplane lap after lap. Not much attention was paid to the gliding machine above untinear the close when it became noised about that Paulham's record was nearly equalled. After that interest centered on Farman and his white winged aerial craft as it continued circling the plain.

Tense with excitement the people kept their gaze fastened on the machine until some one shouted that Paulham's record had been smashed. After the announcement the crowd cheered continuously until the daring aeronaut.

announcement the crowd cheered continuously until the daring aeronaut was compelled to alight because his fuel for the engine was running low.

When the champion stepped from his machine he was greated with one of the greatest ovations yet given an aviator on Bethany Plain. Everywhere he around the Horn.

When the champion stepped from his machine he was greeted with one of the greatest ovations yet given an aviator on Bethany Plain. Everywhere he went people would greet him with enthusiastic manifestations of yoy and cries of "vive la champagne."

The aviator probably is the most popular man in France to-day and tomorrow he will be the moet talked of Farman made his flight in a "Farman made his flight in a "Farman cullular bi-plane" which is of his own construction.

Latham, of France, will get second money, Paulham third, Lambert fourth and Tissandier fifth.

While attempting to equal the Latham aeroplane distance record, Paulham this afternoon was slightly injured when a wing of his aeroplane broke and caused the machine to crash to the ground. The bi-plane was smashed to kindling wood and is practically a total wreck.

The heavy wind which has been blowing all day was the primary cause of

Landed in Lifeboats

(Special to the Times.)

Prince Rupert, Aug. 27.—The steamship Humboldt arrived this morning bringing news of the sinking of the Alaska steamship Ohio. The Ohio struck a rock during dirty weather, and sank forty minutes later. She now ites in twelve fathoms of water. Five-persons are missing, thirty horses drowned, and the ship's cargo is a total loss. (Special to the Times.)

the quartermaster, and two passengers were drowned. The remainder of the passengers and crew were safely landed ashore in life boats and were later picked up by the fishing boat Kingfisher and taken to Swanson Bay. Twenty survivors who were aboard the Humboldt will be taken by the Rupert City to Vancouver and Seattle.

Five Perish, Retchikan, Alaska, Aug. 27.—Official advices late this afternoon show that the total number of known dead in the wreck of the steamship Ohlo is five. The known victims are: Wireless Operator Eccles, Purser Stephen, the quartermaster of the vessel and two members of the crew.

He (absently)-No, darling, I wouldn't marry you for all the money in the marry you for all the money in the world. She—O, you horrid, horrid wretch!-

## FIRE REGULATIONS PROGRESS IN THE KOOTENAY COUNTRY

## Vice-President McNicoll, of C. P. R., Enthusiastic Over Outlook.

"I have a warm spot in my hear for the Kootenay country, with its beautiful scenery and wonderful pos sibilities, and never come west but I travel one way over this route," was he remark of David McNicoll, vicepresident of the C. P. R., when inter viewed at Nelson on his way to Vancouver,

continued, "I see something new to in terest me or to admire, and also frevidence of the development that evidence of the development that is taking place. I make it a rule to take a trip over the company's lines try's possibilities comes to me bu Ity's possibilities comes to me, but-perhaps anything like the change which has come over the country along the Crow's Nest Pass line since I hast passed through, are indications of effort, and effort always leads to suc-cess. Not only did I observe the great progress which has been made in coal-mining and lumbering within the past two years but I noticed also another. two years, but I noticed also another two years, but I noticed also another industry, fruit growing, springing up. "One thing which struck me most forcibly on my way through the Crow's Nest Pass was the progress that has been made in the rebuilding of Fernie. A better city and a bigger one than the old has arisen to replace the one destroyed. What has been accomplished affords a splendid instance of what energy, enterprise and pluck will accomplish for a city."

stance of what energy, enterprise and pluck will accomplish for a city."

On his way west Mr. McNicholl paid a visit to Lethbridge, which, with Southern Alberta generally, he found going ahead rapidly. In the development of Southern Alberta irrigation altready played a prominent part, but was destined to play a much greater one destined to play a much greater one within the next few years. He had visited the irrigation works and had seen the main canal of the system filled with water for distribution in places where the land required only moisture to make it productive.

"But Leithbridge," said Mr. Mc-Nicoll, "is not dependent solely upon Nicoll, "is not dependent solely upon agriculture for its future or its prosperity, although if it were both w perity, although it it were both would be assured. Coal mining is making rapid strides in the neighborhood of the city. Several new companies are opening up properties."

Asked about the crops on the prairie this year, Mr. McNickoll was quite en-thusiastic about the

this year, Mr. McNicholl was quite enthusiastic about the showing at present, but exhibited a canniness inherited from the Scotch ancestors in placing an estimate on the year's yield He said: "I am not an expert in the commuting of crop yields. I, however, made careful inquiry as I came along from our superintendents and from others, and the general opinion was that the crop would run somewhere between I it is proposed to hold Canada's first crop would run somewhere between international exposition and Selkirk Centennial at the Toronto exhibition.

Exposition and Selkirk Centennial at the Toronto exhibition.

For the first time in the history of the west, Winnipeg will have an exhibit at Toronto, and the exposition of the exposition of the people who so that the I is proposed to hold Canada's first time in the history of the west, Winnipeg will have an exhibit at Toronto, and the exposition of the careful individual to the first time in the history of the west, Winnipeg will have an exhibit at Toronto, and the exposition of the people who start the Toronto exhibition. and 125,000,000 bushels, al- 1912. though, of course, some of the more optimistic placed the figure at a much visit to Canada and the west will be

## ROYAL CITY DEBENTURE BY-LAWS CARRY

### Authorize Borrowing of \$398,-000 for Civic Improvements.

sebenture by-laws proposing to \$398,000 for local improvements, passed yesterday, although some had a narrow majority. There was a good ovote cast in favor of each, but a three-fifths majority was necessary to put them through. The \$4,000 asked for advertising purposes was the least favored, and escaped with a bare 18 majority. Little interest was taken in the voting, less than 500 votes being cast in all. The street improvements and waterworks by-laws, in which the most interest centred, were generally felt to be quite safe, as results proved.

Winnipeg, Aug. 27.-George M. Hall, of the exposition publicity department, will represent Canada's International Exposition and Selkirk Centennial at

international exposition at Winnipeg in

Admiral Lord Charles Beresford's higher figure even than the latter. One thing I admire about you westerners is that you are, as a people, optimists, "There is not room in the west for the committee in greeting other dispessimists, and they are no good to impuished visitors of late. A central essimate, and they are no good to the country if there were. Optimists does country: pessimists keep back a development."

dea of the exposition cult is that of increased national spirit, of closer relations throughout the Dominion and with the other parts of the British Em-

> chewan, Alberta and British Col chewan, Alberta and British Columbia will have in the exposition are expected to materialize shortly. The summer vacation season is about over, and absent members of cabinets will be at their posts within the next few days. These absences have constituted the only bars to action thus far, and when they are removed, speedy action will be taken. When these announcements have been made. be taken. When these announcements have been made, a very great deal of progress will have been made toward the final realization of the exposition project. Bountiful harvests in the west, and the really great interest that every western province has in the exposition, warrants the hope that the governments of the three westernmost provinces will deal liberally with the matter of exposition appropriations. matter of exposition appr

## FRASER AGAIN OPEN.

plied with logs, this satisfactory cordition of affairs is due entirely to the dition of affairs is due entirely to their forethought in storing a large supply prior to the freshet, for the delays this season were unusually Jong. First came the freshets, and following immediately came the fishing season, filling the river with nets. It is expected that now that the river is clear of nets there will be a heavy call on the timber limits for logs, and that large numbers of booms will soon be brought to the milis.

#### CANADA AS MARKET TRADE RELATIONS WITH GERMAN EMPIRE

Canada May Find Opening There in Many Lines of Export.

as to the prospects of strained rela-tions between Britain and Germany, ping at the Hotel Vancouver, has come there seems to be no question that to Canada to investigate trade con there seems to be no question that trade with Germany from Canada is capable of considerable extension. It is said that German houses have about 200 travellers in Canada pushing trade in spite of the fact that the surtax is collected on imports. Canadians, according to those interest, have opportunities in Germany in many lines if they would but push the trade. G. A. H. Muller, of Montreal, writing to the Witness of that city, says that he believes that "Germany is the one country outside of Great Britain which is naturally destined to become a good

Germany, according to Mr. Muller, there is a strong trade, Germany sending \$200,000,000 worth to the United Kingdom and the United Kingdom exsending \$280,000,000 worth to the United Kingdom and the United Kingdom ex-porting to Germany \$250,000,000 worth. Mr. Muller thinks that "If the pro-ducts of the farmer and fisherman were brought to greater notice and under less dutiable difficulties that not only would the farmers and fishermen make remendous strides in the German neously improve their trade re-

A Jeague has been formed in Gerany, it is reported, to bringing pressure upon the government to take steps to endesvor to bring about better trade relations with Can-ada.

## REVELSTOKE HOSPITAL SOCIETY MEETING

Financial Statement for Year

Shows Surplus of \$2,335. Revelsioke, Aug. 28.—The financial statement presented by W. D. Armstrong, secretary-treasurer, at the annual meeting of the Revelstoke Hospital Society, was satisfactory in that it showed a balance of receipts over expenditure of \$2.335.13. The receipts were made up principally of contracts, government subsidy and pay patients. Contracts brought in \$13,103.50, pay patients contributed a total of \$2,683.80, of

which \$161.60 was contributed from

Arrowhead. The government subsidy

hospital box at

vas \$3,975.15. The

stoke and 112 from Arrowhead. Be-sides these, in the out-patient department there were 1.514 cases of surgical treatment, of which 550 were at Revel-stoke and 944 at Arrowhead, and near-ly 2,000 dressings.

NORWAY DAY AT FAIR.

Entertaining Programme Arranged for Next Tuesday,

lingham, Tacoma, Everett and Portland in the preparations.

The programme for the day will consist of the reception of the viking ship, recently launched at Bothell, which will bring the sea king and queen and warriors to the exposition grounds at noon of August 39th. An historical pageant of not less than 500 persons in costume, a general programme and dramatic performance at the natural amphitheatre in the afternoon, and a concert in the evening by the United Norwegian singers of the Pacific coast, assisted by soloists of national reputation, under the direction of Carlo Speratt, are among other features of the day.

Whitman, of Annapolis, N. S.; J. B. Miller, of Toronto; Ellwood Wilson, &f. Province of Quebec; Carl Riondon, of Montreat, and W. B. Snowball, of Chatham, N. B. president of the association. A copy of the report is sent free of charge to every member of the association. The membership fee is \$1 per very member of the association, at present published quarterly, which it is hoped soon to change to a monthly. The secretary of the association is Mr. Jas. Lawier, il Queen's Park Toronto, Ont. who will gladly give further information in regard to the association and

DESPONDENT MAN'S SUICIDE.

San Francisco, Cai., Aug. 27.—After addressing a note to his parents, Geo. Ames, fr., the son of a prominent mining engineer, clutched a prayer book to his breast and turned on the gas in a room in the Hotel May, which he had rented yeaterday. In the afternoon his dead body was found lying on the bed. In the note he asked his parents to bury him where "they buried Alice." Alice was his wife. Despondency brought on by the death of his wife recently is believed to be the cause of Ames' suicide.

FOR BRITISH GOODS

Representative of the London

Mail Investigates Trade

Conditions.

Vancouver, Aug. 26,-F. A. McKenzie,

customer of Canada." The exports from Canada to Germany in 5th, lobsters, apples and other fruit, agricultural implements, seeds and lumber. Agricultural implements were one of the heaviest lines of import amounting Between the United Kingdom and Canada all the common of the control of the and I am sure they would be welcomedin a country where strong men are
needed. Not that I am in Iavor of
shipping to Canada all the unemployed.
Our own country has to bear its burden
of poverty, and if men in the Old Country have not succeeded when they had
the opportunity, then they will not get
along in Canada or any other country.
I find on inquiry that there is almost
an unlimited field both in the east and
west for young girls for factory and west for young girls for factory and domestic service, and also for young men and skilled mechanics in certain

Regarding trade, Mr. McKenzie's special object is to see what can be done towards increasing British trade with Canada. He declares that while at present only one-quarter of the imports into Canada come from Britain, in spite of the preference, the greater portion of the manufactured goods of all lines, should be bought in Britain. "The goods are better, the prices are better, in fact, everything is better all around," he said, "and if the British around." he said, "and if the stritish manufacturer has not realized the pos-sibilities in the past, he is fast awak-ening. The British manufacturer must eming. The British manufacturer must-set up branch factories in certain lines. In Canada, and will thus be in close touch with the trade and can co-oper-ate with Canadian capital and enter-prise. If Britain would keep its share of the business in cleerical goods, for instance, the manufacturers will have to establish in Canada. Large stocks in other lines must be kent in the Doin other lines must be kept in the Dominion, and proper representation of goods must be made. The chances in Canada are being appreciated more and more by the British manufacturer, and a few years shall see a vast difference."

FORESTRY ASSOCIATION. Preparations Under Way for Annual

Meeting at Regina Early Next Month. The Canadian Forestry Association is again giving evidence of its activity and enthusiasm by holding a special meeting in Regina, Sask., on Septem-Contracts brought in \$13,103.50, pay pa-ients contributed a total of \$2,683.80, of meeting in Regina, Sask., on Septem ber 3rd and 4th next, at which prob

was \$2,975,15. The hospital box at Glacier contributed \$16.50, and \$22.35 was also received from subscriptions. The balance, made up of interest, cash in hand, etc., brought the total receipts up to \$21.073.56.

The total expenditure was \$18,788.43, of which the principal item was \$18,788.43, of which neeting and the ext, at which problem ber \$70 and the next, at which problem ber \$70 and the next, at which problem showed proving the many in the newly appointed secretary, Jas. Lawler, is hard at work preparing for the meeting and has his programme in good shape.

The annual report of the association has lately been issued. Prominent those on "Forest Conditions in New Brunswick," by Hon. C. H. Grimmer, was surveyor-general of that province, and "The Forest Resources of Ontario," by Hon. C. H. Grimmer, was proving the province and the In his paper entitled "What We Want," outlines the needs of Canadian forests and the steps so far taken by the different governments to meet them, and E. J. Zavitz, forester to the College, Department of Articulture. Ontario. Department of Agriculture, writes of waste-land planting in that province. Other writers and speakers Seattle, Wash., Aug. 26.— A programme out of the ordinary has been arranged for Norway day at the Alaska-Yukon-Pacific exposition, August 39th. The Norway executive committee. Norwegian societies of the city, has are His Excellency the Governor-Gen of Seattle, which represents all of the dent of forestry; A. Knecutel, inspect Norwegian societies of the city, has the support and co-operation of the auxiliary communities in Sigkane, Bellingham, Tacoma, Everett and Portland in the preparations.

Miller, of Toronto; Ellwood Wilson, of Mil

## "ON TO SOOKE LAKE" DECLARES MAYOR HALL

(Continued from page 1,)

"I have just seen the resolution which the mayor will move on Mon-day evening next. I am, of course, in accord with the spirit of it, as I favor going to Sooke Lake, and have always done so.

"But I think that the first step now should be the summoning of a special meeting of the council to consider the situation arising out of the defeat of he by-law and the outlining of a plan of action under the circumstances.

Phone 742, Rooms 742 Fort Street.

PRELIMINARY NOTICE.

Important Live Stock Sale

The street of action under the circumstances.

"We should, I think, ask the rate-payers to sanction a loan of, say \$150.009, for the purpose of allowing the council to get absolute control of Sooke Lake as a source of water supply. This amount would allow us to purchase all rights of way and protect the same and clear away all encumbrances in connection with the taking over of the property.

"When this had been done I would onen this had been done I would favor securing the services of the most competent engineer obtainable to advike the council in respect to its general plans for the bringing of the water into the city.

water into the city.

"Personally, I am of the opinion that three methods are open to the city in respect to transmission methods. There is that of tunnelling, which is a matter, for further in the city. matter for further investigation; second, there is that of an ordinary pipe line, and, third, the open

plan. I favor the latter, as I think it may be found feasable. "By the open ditch plan the water would be carried at as high an elevation as possible to a point within six-teen or seventeen miles of the city. Here a balancing reservoir could be constructed and power facilities estab-lished. Should it be possible to develop much power the same could be sold

## FRASER CHANNEL GREATLY IMPROVED

Work on the Annieville Bar Proves Success—Dredge in Operation.

New Westminster, Aug. 26.-The An New Westminster, Aug. 26.—The Anneville bar, the most dangerous spot for large shipping on the river, has been conquered, and in the future the largest of ocean-going vessels will be able to pass without thought of danger.

Last year the Dominion government built a large wing dam on the South side of the river, on the recommenda-

side of the river, on the recommenda-tion of Resident Engineer G. A. Keeftion of Resident Engineer G. A. Keefer. The high water proved to be
too strong for the dam and carried
part of it away. But it did its work
before collapsing, and the remaining
part is apparently sufficient to continue the work. Soundings taken last
week showed that there was over 21
feet of water in the channel at this
point in all but one place where for point in all but one place, where for a very short distance there were only

point in all but one place, where for a very short distance there were only 19 feet. The soundings were taken at extreme low tide and are exceedingly satisfactory to the engineer.

Seen regarding the work of this and the other dams, Mr. Keefer stated that all had done the work expected of them and that only the one had been damaged. This was due to the filling of the dam having been too fine. It was possible that the dam was built too long in the first place, and it would be left at the present length long enough to determine whether this was the case or not. If it had to be built out again, the work would be made solid enough to stand any assault of the river.

Profiting by the experience gained in the recent freshet, the engineering

in the recent freshet, the engineering staff is strengthening the outer ends ands. The snag boat Sampson is en-gaged on the work and is fitting in between the rows of piles with heavy logs and tree trunks. Engineer Keefer expressed the con-

between that there would be no more trouble with the Annleville bar in the future.

The snag boat Sampson is at work it the mouth of the river, taking

at the mouth of the river, taking soundings in connection with the annual government survey.

The government dredge Fruhling returned to the Sandheads yesterday and is again at work on the dredging of the river channel in pursuance of the government's project of making a thirty-foot channel from the city to the gulf.

POWER "AYE"

WATER "NO"

The telephone in the Times office was kept busy all evening by the con-tant requests to know how the voting was going. That the ladies were qually interested with the men was own by the fact that nearly half the were from ladies.

There was great satisfaction on all sides when it became known that the electric by-law had carried, though the crowds received with mixed feelings the announcement of the defeat of the water by law. Mayor Hall was much disappointed

Mayor Hall was much disappointed over the outcome in respect to the latter measure. Interviewed after the result had been made known, his worship expressed the opinion that the verdict of the ratepayers was mainly based on prejudice against the Esquimatt Waterworks Company and an inability Waterworks Company and an inability or indisposition to grasp the essential points in favor of the expropriation of Goldstream. His worship was also of the opinion that the reports which had been circulated in respect to the condition of the Smith's Hill reservoir had had a bad effect on the public mind. The mayor was personally of the opinion that these reports were in the main unwarranted.

There was great rejoicing at the rooms of the citizens' committee when the success of the efectric by'slaw became known. Dozens of enthusiastic workers cheered the result and Simon Leiser, president of the board of trade,

Leiser, president of the board of trade who was indefatigable in his efforts on behalf of the agreement, declared amidst applause: "The board of trade said they would carry that by-law and have done so."

"When the ditch system and balancing reservoir system had been completed, if it were found that there was found to be necessary. In the interim, the city muld be deriving a revenue from the sale of power generated at the balancing reservoir.

"Personally, I am of the opinion that there is ample water in Elk Lake for a considerable period of time—four years at least."

"A least of the man interview fie centured the prediction that in November, 1910, his company would have power from Jordan river. The sometime prompt yound proceed with all haste to the censummation of the huge project which had been promised the rate-payers. Though under the agreement the company has three years in which to complete the work, it would be taken in hand immediately and pushed to completion as rapidly as possible. As an an interview fie centured the prediction that in November, 1910, his company would have power from Jordan river. The content of the huge project which had been promised the rate-payers. Though under the agreement the company has three years in which to complete the work, it would be taken in hand immediately and pushed to complete the work in the company has three years in which to complete the work it would be taken in hand immediately and pushed to complete the work in the province of the work in the company has three years in which to complete the work in the province of the work in the province of the work in the rate of the work in the province of the work in the work in the province of the work in the work in the work in the province of the work in the work in the work in the work in the province of the work in the naturally highly elated, and in an in-

engineer, will have charge of the installation of the immense power plant. It is the opinion of E. McGaffey, of the Vancouver Island Development League, that the ratification of the agreement with the electric company will prove one of the greatest factors in the campaign of publicity for the n the campaign of publicity for the upbuilding of Victoria and the develor ment of the island. He anticipated im-mediate results from the passage of the by-law, as the league was in receipt of many enquiries respecting facilities for manufacturing plants, and as ample power was now assured for the near future, the league will be able to send satisfactory replies.

### SCIENTISTS READ PAPERS AT CONVENTION

### Sir Duncan Johnston Reviews Results of Exploration During Year.

Winnipeg, Aug. 27.—The majority of Winnipeg, Aug. 27.—The majority of the papers read at the opening sessions of the sections of the British Associa-tion Congress yesterday were neces-sarily technical, but others, such as Dr. Robert Bell's paper on the Hudson Bay route, were of popular as well as scen-tific interest. The properties of radium were discussed by Prof. J. H. Poynting, in the mathematical and physica science section.

The president of the mathematical section, Prof. E. Rutherford, late of McGill University and now of the University of Cambridge, in his opening remarks outlined the modern proofs of the molecular theory, and ing remarks outlined the modern proofs of the molecular theory, and gave some of the remarkable results arrived at in atomatic measurements.

The president of the geographica section. Sir Duncan Johnston, in his address reviewed the principal results of exploration during the past year, including the journey of Lieut. Shackof the dams on Lulu and Annacis igl- leton into the Antarctic circle, and al so discussed questions of policy with regard to surveying and reproduction of maps, giving the practice of several countries and making recommendations.

Prof. S. J. Chapman, in his inaugural

subjects relating to economic science

subjects relating to economic science and statistics are referred, dealt with the question of wages and leisure of workmen,

At the conclusion, a'vote of thanks was moved by Dr. Bonar, who re-marked that if factories were going to run several shifts a day it would mean that they would be running all day

run several shifts a day it would mean that they would be running all day, and he did not like the idea. He was in accord with Dr. Chapman in his leaning towards a shorter working day and the provision of more lelsure.

The opening paper of the engineering section was by Sir John Thorny-croft, on hydroplanes, or skimmers, in which was pointed out the developments which have taken place and the experiments which are being carried on towards the finding of suitable mod-

experiments which are being carried on towards the finding of suitable models for high speeds.

A highly interesting paper, from a local standpoint, was read by Prof. Reginald Buller, of Manitoba University, assisted by C. W. Lowe, in which the remarkable freedom of the Manitoba winter atmosphere from bacteria was demonstrated, and with which charts were shown pointing out the effect of climatic conditions throughout the year on the number of bacteria in Winnipeg's air.

The greater part of the afternoon was tasken up with a visit to Lower Fort Garry, where a reception was tendered by Commissioner and Mrs. Chipman, of the Hudson's Bay Company.

pany.

Last night, Dr. Tutton, of London,
Eng., gave a lociure on "The Seven
Styles of Crystal Architecture" to a
large audience in the Walker theatre.

You cannot possibly have a better Cocea than A delicious drink and a sustaining food. Fragrant, nutritious and economical. This excellent Cocoa maintains the system in robust health, and enables it to resist winter's extreme cold.

## WEEK-END WANTS

MAN WANTS but little here below, but woman —God bless her!—wants a lot, in order that man may want little; especially on Saturdays, when she fills those little kitchen wants that help to fill the wants that man

> wants; hence, she wants

Weiler's week-end wants.

## **Preserving Wants**

OUR COMPREHENSIVE STOCK of fruit preserving necessities should gladden the heart of the thrifty housewife; they will find everything xcept the fruit and sugar. For instance: FRUIT JARS, JELLY GLASSES AND RUBBER RINGS, etc. Moreover, we sell the famous and reliable MASON JAM JARS. Pints per doz. 80c; quarts per doz. \$1; half-gallons per doz. \$1.35. Jelly Glasses per dozen ...... 50¢

## KITCHEN UTENSIL WANTS

POTS, pans, brushes, saucepans, brooms, wringers, baskets, clotheslines and all those hundred and one little incidental items which make kitchen life worth living. Saturday is a good day to look over our kitchen department and see those many new inventions for lessening kitchen labor. To mention prices would fill this paper, so we merely 

## Tourists' Wants

TOURISTS are cordially invited to inspect the very large and comprehensive collection of superb china, brassware, Oriental fabrics and other art wares in our showrooms—showrooms that have recently been remodelled and rearranged, thereby enabling visitors and customers to view and handle the goods without difficulty. You do not buy a pig-in-a-poke, you see exactly what you get and are not misled by fictitious values. Every floor has its attractions, every

## DINNER TABLE WANTS

WE FREQUENTLY draw attention to our superb dinner services in Wedgwood, Limoges and other noted makes; but the public should not forget that when wanting ordinary, everyday dinner sets we have the greatest range in the West and at the lowest prices. For instance, in Carlsbad China, 113 pieces, dainty floral, gold edged service, at \$18, or English sets in very pretty green and white, etc., 98 pieces for \$8.00
